

Translation – Offer

Our offer includes professional texts, documents, and web pages translation from English, French, Spanish and to Polish and vice versa.

- We realize translation from all disciplines including: business, law, economy, computer science, electronics, mechanics, chemistry, biology, medicine, philosophy, religion, as well as literature and advertisement.
- We realize translation of electronic documents of any kind, starting from charts and data included in spreadsheets, through graphics, scans, to files written in e.g php, javascript code without violating the original form.
- We act professionally and precise adjusting to appropriate vocabulary attributed to a given theme discipline or business. We try to reflect the original style of the translated text, simultaneously keeping original form, context and meaning of it.
- When translating technical texts or specialistic we try to reflect the described processes or activities in such a way so that it would be understood and possible to conduct in practice on the basis of resultant text. When there is something ambiguous we insert footnotes.
- We also translate web pages and web sites, visiting cards for companies, whole services keeping the original design and form. Owing to providing parallel services: web page designing and search engine optimization - when translating them - we can enlarge and optimize a given service.
- Our translations are done by a team of qualified specialists from a given branch, what guarantees a high substantial level.
- We respect data and information given by our Customers.
